

CHEF SERIES COOKWARE

Chef Series Cookware by Tupperware is designed to honor your ingredients, your skill and your imagination in the kitchen. Each piece features high-quality construction and the amazing warranty you expect from Tupperware.

This premium line of cookware features quality construction for superior performance, durability

and a lifetime of enjoyment. The tri-ply base consists of aluminum layers fused between stainless steel, the hollow stay-cool handles provide the most comfortable cooking experience and the tempered glass covers allow you to view the content without losing heat and are oven safe up to 350° F/177° C.

WHY YOU'LL LOVE OUR CHEF SERIES COOKWARE:

1

Superior even heating thanks to its **aluminum fused stainless steel base** that transfers heat faster and evenly. **No hot spots.**

2

Compatible with **all cooktops** (gas, electric, ceramic and induction).

3

Hollow, **stay cool, riveted handle** for increased durability.

4

Pans can be used in the oven at up to 450° F/232° C.

5

Ergonomic **tempered glass covers** that allow you to see what you're cooking and can be used in the oven at up to 350° F/175° C.

Tupperware®

CHEF SERIES II FRY PANS

Chef Series II Nonstick Hard Anodized Fry Pans

Like their older siblings, our newest additions to the Chef Series family share some of their benefits, and add some of their own.

- Aluminum core is 3 to 4 times thicker than tri-ply, heating up and cooling down 3 to 4 times faster.

- Features Eterna® Nonstick coating that's PFOA free. A material thought to be carcinogenic, PFOA is totally absent from all of our nonstick cookware.

Get Anodized!

Anodizing—might as well be called *awesomizing!*—is an electrochemical process used to create a harder nonporous surface, also producing a very regular and uniform coating for enhanced appearance and performance.

- Anodization process accelerates the natural oxidation process of metals, creating a harder than stainless steel exterior.

- Also, anodized aluminum is more resistant to corrosion and wear, and easier to clean.

Tupperware Warranty

Chef Series II products are warranted by Tupperware against chipping cracking, breaking or peeling under normal non-commercial use for the lifetime of the product. The nonstick coating carries a 10-year limited warranty against defects in the material or workmanship.
